INTERNSHIP EXPERIENCES

	2025
Full Stack Development Intern – Gained hands-on experience in building and deploying scalable web applications using the MERN stack. Developed RESTful APIs with authentication (JWT), implemented role-based authorization, and integrated MongoDB with Express. Deployed applications on AWS EC2 and S3 with CI/CD using GitHub Actions. Strengthened skills in cloud deployment, API testing (Postman), and secure coding practices.	

PROJECTS

	2025
Expense Split Tracker – Developed a financial utility web application using Spring Boot and MySQL to manage shared expenses within groups. Implemented group creation, member management, expense tracking, and balance calculation features using Spring Data JPA. Designed RESTful APIs for expense management and generated group-wise expense reports for transparent financial tracking. Strengthened skills in backend development, database design, and API development.	
	2025
Pet Adoption & Care Portal – Developed a full-stack web application using React (Vite), Node.js, Express.js, and MongoDB to streamline pet adoption processes. Implemented features including pet registration, search and filtering, adoption request management, and secure user authentication. Designed RESTful APIs and integrated MongoDB for efficient data storage and retrieval of pet and user information. Enhanced practical expertise in MERN stack development, database design, and responsive web application development
